COMMUNICATIONS

Our Fiber connectivity includes automated failover to alternate connectivity in the event of a failure.

**Our first priority is the reliability of your services.**

We have connected 1444 N Farnsworth Ave with multiple diverse Internet Connections so that in the event of a failure, you will remain online and in business. Avoid having to send everyone home in the event of your Internet provider having an outage.

**We do Internet Right.**

Get the Robust Connection you deserve.

There are a number of important concerns when looking at vendor options. The highest Speed (Mbps) doesn't make for the best performance or best value if you are not using what you are paying for. Let us help you size the service you need for your Business.

**Our first priority is the reliability of your services.**
